International weddings

We love shooting wedding's abroad...who wouldn't! But they do take us out the office for a long while and inc additional costs for extra days, accommodation, car hire and flights, so please just drop us some details for a detailed quotation.

Prices valid until 31st December 2015

Please note: Unfortunately bookings cannot be secured until booking forms are returned along with a deposit. really sorry but we get lots of enquiries and it can be very time consuming and quite mind boggling chasing people up...and lets face it, if you wanted us you would book before we get snapped up!

TRAVEL

Sorry but Wedding locations over 80 miles may have additional traveling cost's of £1.50 per mile This may seem extreme but this is to pay for overnight accommodation for one or two nights dependent on distance, as you can imagine its really hard work shooting a wedding and if you added 3 hours driving on before the wedding we would probably be asleep during the speeches, which would be no good at all as this is our favorite part of the wedding. But on a plus side we would be in no hurry to get home and still have our cameras so its not all doom and gloom.

Example:	Distance to wedding 150 mile	There	Return
	3 hours 30 mins each way	80 miles free	80 miles free
	would need 1 nights stay and	70 miles @ £1.50	70 miles @ £1.50
	loads of diesel	Total cost £205
